

SOEN-287 Project Deliverable 1: Current & Future Features

Team 16

Current Features:

- Header and footer shared across pages
- Home page with featured events, About page, and contact information in the footer
- Functional Login and Sign up pages
- Login as either student or admin
- Security question password recovery
- Student dashboard with featured events and relevant data
- Event registration with front end checks
- My registration page with personal event registrations past, present, and upcoming
- Student profile for actions pertinent to account information
- Admin dashboard with all events and data related to them like total registrations, attendance
- Ability to create, edit, and cancel events

Future Features:

- Backend Logic for the aforementioned features
- Student database
